

Retractable Loading Platform

Retractable Loading Platform

- Fully retractable floor supply system - allowing units to be installed directly above one another
- Ultra smooth sliding action - can be extended and retracted by just one person
- Increased crane productivity - materials can be lifted straight from transport directly to the required floor
- Full safety features - including all round handrails, mechanical locking devices and four integral props each tested to 130kn each
- Can be flat packed to 500mm high - enabling multiple platforms to be stacked reducing storage and transport costs
- High build quality and fully galvanised for longer life

Easy Installation

Two Sizes Available

Model	MD24	MD29
Length Retracted	6m	6m
Length Extended	9m	9m
Width	2.4m	2.9m
Weight	2400kg	2800kg
Loading Area	4500 x 1860	4500 x 2340
S.W.L	5000kg	5000kg

AVAILABLE TO HIRE
